COURSE STRUCTURE

**Govt. Model Women College
PROSPECTUS 2024-25**

From the academic session 2023-2024 Gauhati University has introduced the Four Years Under Graduate Programme (FYUGP). The course shall be of Eight Semesters. A student needs to earn a required number of credits in order to successfully complete a degree.

The detailed course structure for a 3-Year Bachelor Degree (As available in Gauhati University Website) is represented in the figure below. This structure depicts a general scenario where a student will choose one major course and two minor courses. It is to be noted that in order for a re-entry into the 3-Year course in Semester III or V for students who have opted for leaving the course after the 1st and 2nd year respectively, additional vocational course of 4-credit has to be done by the student on exit.

Fig. Course Structure for a 3-year Bachelor Degree. The numbers indicate credits in the paper. The Voc-1 and Voc-2 papers are vocational courses that a student would have to take in the case of exiting in the 1st or 2nd year. These courses are NOT compulsory in general, but a student will need them for re-entry into the programme.

In the FYUGP, one has choice to exit from the programme thrice – after one year, after two years, and after three years.

If one exits the programme after one year, one gets a certificate. If one exits after two years, one gets a diploma. If one exits after three years, one gets a Bachelor's Degree. And finally, if a student completes the whole 4-year, one gets a Bachelor's Degree (Honours).

If a student exits the FYUGP after 3 years, she will need to take admission into the first year of a Master's programme, which is a 2-year degree programme. However, if a student fully completes an FYUGP, she needs to take admission into the second year of a Master's programme and needs to complete only one year to get a Master's Degree. Under CBCS, there was no such pathways.

Once a student takes admission into a Master's programme either after 3 years of the Bachelor's programme or after FYUGP, one will be able to take admission into a Doctoral programme leading to the Degree of PhD. However, if a student is exceptionally good, one can directly take admission into a Doctoral programme right after the FYUGP, bypassing the Master's programme.

FYUGP Progression

The progression and multiple exits during the whole course structure is given below.

After 1 Year

One can exit just after one-year. In this case, the student will have to complete one extra Vocational / Skill course (Exit Course) of 4 credits and can exit the programme. The student will get a Certificate. The minimum total credit requirement is 44 (and 4 credit extra for the exit Vocational course).

After 2 Years

One can exit the programme after two-year course as well. In this case, the student will have to complete one extra Vocational / Skill course of 4 credits and can exit the programme. The student will get a Diploma. The minimum total credit requirement is 88 (and 4 credits extra for the exit Vocational course).

After 3 Years

If a student completes 3 years, she can exit the programme. In this case the student will get a Bachelor's Degree. The minimum total credit requirements is 120.

After 4 Years

After completion of 4 years, the student gets either a Bachelor's Degree (Honours) or a Bachelor's Degree (Honours) with Research. The minimum total credit requirements is 160. It should be noted that any certificate / diploma / degree is awarded only if the student clears (i.e. passes) all the required courses (papers) till that point of time.

N.B.: Every student who wants to exit before 3 years into the programme, MUST complete an additional Vocational Course of 4 credits.
